More Articles news comment FLEMINGTON, Va. - John and Amy Flynn celebrated their 35th wedding anniversary with a horse and carriage ride in Park Slope Sunday afternoon. Hosted by friends from around the local area, the Flynn's raised \$180 for the Flying Carriage Riding Association. "It was great," Flynn said of the event. "I think it was a great idea. I think the parking was a problem. It was a cold day and they had to park on the street. But in a way that was good because you got out of the car and you didn't have to walk too far," Flynn added. The two set a goal of \$500, but the funds raised by the event will be put towards the new carriage for local children. "It's amazing to see how it all came together. Really, it was a lot of people who want to help and it's our way of saying thanks," Flynn said. "There's always going to be different opportunities for people to volunteer, but it's just one of those events that brings everybody together." [Incidence and mechanism of pulmonary thromboembolism in elderly trauma patients]. To study the incidence of pulmonary thromboembolism (PTE) and its association with injury severity in elderly trauma patients and the possible mechanisms of PTE in this age group. From October 2007 to March 2010, 92 elderly trauma patients with stable vital signs, who met the inclusion criteria, were enrolled, including 70 males and 22 females. One hundred and twenty-five cases of non-elderly trauma patients of similar characteristics who were admitted to the same ICU were enrolled as the control group. The
